MADE IN ITALY

Sinusitis and Rhinitis

Description

AGFAST GTT is a medical device useful to promote the hydration of the nasal mucosa as well as the fluidification of nasal secretions thereby facilitating their removal. **AGFAST GTT** is indicated in all nasopharyngeal affections characterized by congestion and alteration of muco-ciliary clearance. It helps keep the nose free, inhibiting the adhesion of pathogenic bacteria, thus preventing the development of infections of the upper respiratory tract.

Instill 2 or 3 drops, 3-4 times a day, up to a maximum of 7 days.

Therapeutic indications

- Promotes hydration of the nasal mucosa
- Antimicrobial and antibacterial activities
- Helps keep the nose free

Presentation

AGFAST GTT is a nasal drop gel, available in 20 ml in bottle with erogator.

Ingredients

Methyl-Sulfonyl Methane, Xylitol, L-Lysine, Colloidal Silver, Ectoine, Sorbitol, Vitamin B2 (Riboflavin).

Plus

Heal wounds on the mucosa of the respiratory tract

Antibacterial properties

Helps reduce inflammation and dryness of the nasal mucosa
