Description

AGFLU SPRAY GEL is a medical device useful to promote the hydration of the nasal mucosa, the fluidification of nasal secretions and consequently their removal. It is indicated in all nasopharyngeal diseases characterized by congestion and alteration of mucociliary clearance. It helps to keep the nose free, inhibiting the adhesion of pathogenic bacteria, thereby preventing the development of infections in the upper respiratory tract.

2-3 spray per nostril, 3-4 times a day, or more often as needed.

Therapeutic indications

- Affections characterized by congestion and altered mucociliary clearance
- Promote the hydration of the nasal mucosa
- Helps to keep the nose free
- Preventing the development of upper respiratory tract infections.

Presentation

Nasal spray gel 20 ml in bottle with erogator.

Ingredients

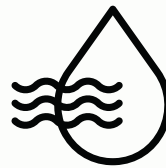

Sodium Chloride, N-Acetyl-Cysteine, Xylitol, Colloidal Silver, Sorbitol.

Plus

Fluidization and dilution of mucus, facilitating elimination.

Hydration of the nasal mucosa and reduction of dryness.

Antibacterial and antiviral action to combat upper respiratory tract infections.

Relief of nasal congestion and feeling of obstruction.
