Medical Device CE

MADE IN ITALY

# ANORECTAL DISORDERS

## DESCRIPTION

**Idanil** is an anti-hemorrhoidal solution for topical use. Thanks to its composition based on Vitamin E, Chlorexidine, Hyaluronic Acid and Aloe Vera acts locally by reducing inflammation, redness, itching and anal burning, providing a fresh relief sensation and protecting perianal membranes against bacterial infections.

## THERAPEUTIC INDICATIONS

- Internal and external hemorrhoids
- Anal fissures
- Perianal sores and irritations
- Anal area healing and recovery
- Perianal membrane protection thanks to its barrier effect
- Itching and painful crisis due to anorectal disorders
- Anal and perianal erythema and eczema
- Haemorrhoidal conditions due to obesity and long-term constipation
- Post-gravidancy anal fissures
- Pre and post anal surgical operation treatments
