

Propelin

Oral Spray

- Sore throat
- Pain and discomfort in the mouth
- Redness and inflammation
- Dryness
- Sensitivity in swallowing

Medical device

MADE IN ITALY

THROAT AND MOUTH PAIN

DESCRIPTION

Propelin oral spray, based on: propolis, echinacea angustifolia, althaea, mentha piperita, erysimum, chamomilla recutita and calendula officinalis.

Is useful in states of irritation and redness of gingival and oropharyngeal mucosa associated with burning, pain, dryness and sensitivity in swallowing. Propelin oral spray protects the oropharyngeal mucosa by hydrating it and limiting contact with external irritant agents.

Dosage: from 1-3 spray 2/4 times a day, or more if needed
