

- High cholesterol levels
- Malabsorption syndromes
- Normalization of homocysteine levels

Food Supplement

MADE IN ITALY

CHOLESTEROL REDUCTION

DESCRIPTION

Zerosterol is a food supplement based on red rice extract, coenzyme Q10, Policosanols, Astaxanthin and Folic Acid. Thanks to its composition, it contributes to reduce blood cholesterol level and it favors the homocysteine's metabolism regular functionality. It is particularly indicated to support the treatment of hypercholesterolemia.

DOSAGE

It is recommended to administer 1 tablet a day.

THERAPEUTIC INDICATIONS

- *Hypercholesterolemia*
- *Hyperhomocysteinemia*
- *Homocysteinuria*
- *Malabsorption syndromes*

PRESENTATION

One box containing 20 film-coated tablets in blister of 515 mg each.

INGREDIENTS

Monascus purpureus extract, coenzyme Q10, Policosanols, Astaxanthin and Folic Acid.

PLUS

Through its composition, **Zerosterol** exerts a valid support to normalize the cholesterol level in the blood

Monascus purpureus extract

reduction of cholesterol circulating levels in the blood

Coenzyme Q10

intervenes in the oxidation-reduction reactions involved in the synthesis of ATP

Policosanols

decreases endogenous synthesis of cholesterol and triglycerides

Astaxanthin

Reduces bad cholesterol levels in the blood

Folic Acid

contributes to the normal functionality of the homocysteine metabolism
