

- Lympho-venous stasis
- Capillary fragility
- Eavy and tired legs

MADE IN ITALY

Heavy and tired legs

Description

Luminex cream gives a feeling of well-being in the areas where applied, especially in the case of heavy and tired legs. Luminex cream can also be used in the presence of lympho-venous stasis and in the presence of capillary fragility. It gives relief from annoyances such as burning and itching, and helps counter the onset of rubbing irritations.

Apply on the affected area an adequate amount of product and gently massage from bottom to top until completely absorbed.

Therapeutic indications

- Helps counter the onset of rubbing irritation
- Relief from annoyances such as burning and itching
- Provides immediate relief for tired, heavy legs

Presentation

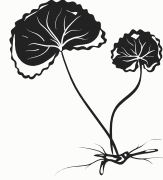

Tube of 200 mL

Ingredients

Melilot, glycyrrhetic acid, Centella asiatica, Blueberry, hyaluronic acid, vitamin E, Menthyl Lactate

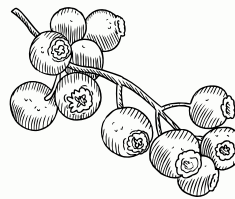

Plus

Centella asiatica

Useful for venous insufficiency and the resulting swelling and heaviness in the legs and ankles, but also to combat vein pain and night cramps in the lower limbs

Blueberry

Exerts a beneficial and protective action on the capillaries of the microcirculation, benefiting circulation in the lower limbs, thus reducing fatigue and the unpleasant feeling of 'heavy legs'
