MADE IN ITALY

Bone fragility

Description

OSTAX LIQUID is a dietary supplement containing Calcium, Magnesium, Zinc, Vitamin D3 and Riboflavin. Calcium and Vitamin D are necessary for bone growth and development in children. Calcium, Magnesium, Vitamin D are found to be helpful in maintaining normal bones, normal teeth, and normal muscle function. In addition, Vitamin D promotes normal absorption/utilization of calcium and phosphorus while Riboflavin contributes to the protection of cells from oxidative stress and the reduction of fatigue and tiredness.

Adults: 10 ml, 2 times a day

Therapeutic indications

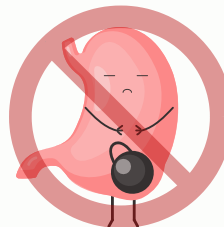

- Support for the immune system
- support teeth and muscle function
