

- Wet coughs
- Catarrhal coughs
- Bronchial secretions
- Throat well-being

Food Supplement

MADE IN ITALY

WET AND CATARRHAL COUGHS

PLUS

DESCRIPTION

Sulfurin is a dietary supplement containing N-acetyl cysteine, Methylsulfonylmethane (MSM), Vitamin C, Zinc, extracts from Licorice and Grindelia. Vitamin C and Zinc contribute to the normal function of the immune system, the Licorice assists the fluidity of bronchial secretions and the well-being of the nose and throat, while Grindelia supports the functionality of the upper respiratory tract.

Taking 1 sachet daily is recommended.

THERAPEUTIC INDICATIONS

- Contributes to the normal function of the immune system
- Assists the fluidity of bronchial secretions
- Welfare of the nose and throat
- Supports the functionality of the upper respiratory tract
- Anti-inflammatory properties

PRESENTATION

Powder in 20 sachets

Liquirizia radice e.s. / Licorice root d.e. (tit. al 19% in acido glicirizico / tit. to 19% in glycyrrhizic acid)	150 mg	-
Grindelia sommità fiorite e.s. / Grindelia flowering tops d.e.	50 mg	-
Zinco / Zinc	10 mg	100

* VNR = Valori Nutritivi di Riferimento - Nutritional Values of Reference

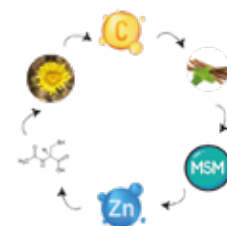

Effective mucolytic action

The presence of N-acetylcysteine and MSM in the product can help increase the fluidity of mucous secretions in the respiratory tract

Synergistic action of active ingredients

Reduce mucus production, soothe the throat and reduce respiratory tract inflammation

Anti-inflammatory properties

Glycyrrhizic acid and Grindelia robusta have anti-inflammatory effects, reducing respiratory tract inflammation associated with wet cough.

Good Taste!
