Food Supplement

MADE IN ITALY

HORMONAL IMBALANCES

DESCRIPTION

Diacare is a food supplement based on Myo-Inositol, Folic Acid, Alpha Lipoic Acid, N-Acetyl Cysteine, Vitamins and Minerals. It is indicated in treatment of Polycystic ovary syndrome and acts like an adjuvant in metabolic syndrome associated with PCOS. The combined action of the components of Diacare regulates hormone levels, ovarian functions, and fertility.

Possible targets:

- PCOS patients
- Pregnant women
- Gestational diabetes

Dosing: It is recommended 1 sachet a day.

THERAPEUTIC INDICATIONS

- Polycystic ovary syndrome
- Regulation of hormonal activity
- Hyperandrogenism
- Hypoglycemia
- Metabolic syndrome associated with PCOS
- Hormonal regulation
- Adjuvant in controlled ovarian hyperstimulation protocols
- Altered cellular energy metabolism
- Mood stabilizer
