Neck pain
Back Pain
Sciatic nerve
Localised states of tension

PRESENTATION

Joistat is supplied in a pack of 30 sachets.

Bromelaine, Methyl sulfonyl methane, Chondroitin sulfate, Glucosamine and Devil's Claw.

AVERAGE CONTENTS IN 1 SACHET

INGREDIENTS	Q.TY
Glucosamine	500 mg
Chondroitin sulfate	500 mg
MSM	3000 mg
Bromelaine 2500 GDU/g	100 mg
Devil's claw d.e. (tit. 1,6% in harpagoside)	10 mg

Bromelaine

anti-inflammatory action → inhibits thromboxane synthase by blocking the synthesis of pro-inflammatory prostaglandins

Devil's Claw

sustaining regular joint function.

MSM

important in cases of cartilage degeneration → acts as a stimulator on cartilage synthesis → reduces pain and restores joint mobility

Chondroitin sulphate, glucosamine

this association improves the health of the cartilage protecting it from trauma and deterioration.
