- Certificate of Origin (at the time of invoicing)

## Dosage Form

Conditions requiring complete emptying of the large intestine:

- The recommended dose is 4 sachets of 20 ml. Dilute the contents of the first sachet in a glass of water (250 ml) and drink it; immediately take another glass of water (250 ml). Repeat this operation for the other three sachets, trying to take a total of about 2 liters of water.

If the test is carried out in the morning:

The day before the examination:

- dissolve two sachets of product in 150 ml of water, to drink at 4 P.M.
- dissolve two sachets of product in 150 ml of water, to drink at 8 P.M. Within 2 hours of taking product drink 1 litre of liquids (water, tea).

If the exam is carried out in the afternoon:

The day before the examination:

- dissolve two sachets of product in 150 ml of water, to drink at 8P.M. Within 2 hours after taking product drink 1 litre of liquids (water, tea).

The morning of the exam day:

- breakfast with tea, coffee and 1- 2 rusks dissolve two sachets of product in 150 ml of water, to drink at 8 A.M. Within 2 hours after taking the product drink 1 litre of liquids (water
