

- Atrophic vaginitis and nonspecific vaginal dryness
- Genitourinary syndrome of menopause
- Latrogenic vaginal dryness (caused by pelvic radiation therapy, oral contraceptives, or medications)
- Immediate pH acidification
- Vaginal inflammation: resolution of itching and burning

Medical Device

MADE IN ITALY

ATROPHIC VAGINITIS

PLUS

DESCRIPTION

Alegyne ovules is a medical device that helps maintain the natural defenses of the vagina and facilitates the restoration of vaginal flora; Hyaluronic Acid and Lactic Acid helps eliminate the symptoms linked to unbalanced vaginal hydration and/or vaginal pH.

Hyaluronic Acid in its sodium salt form at a 10 mg/ovule dosage exerts an hydrating and lubricating action against vaginal dryness contributes to restore a natural and comfortable vaginal environment. Lactic Acid naturally found in the vagina promotes an immediate pH adjustment and facilitates the natural recovery of the delicate vulvo-vaginal ecosystem. Polycarbophyl helps lower the vaginal environment pH by releasing H⁺ ions while interacting with the vaginal mucus.

Insert 1 ovule/day into the vagina – preferably in the evening before sleeping - for 5-7 days after the end of menstrual cycle or according to medical advice.

THERAPEUTIC INDICATIONS

- Helps maintain the vagina's natural defenses
- Facilitates the restoration of vaginal flora
- Moisturizing and lubricating action
- Useful in the prevention and treatment of nonspecific vaginal dryness, including that caused by radiotherapy, as well as in cases of atrophic vaginitis.
- Adjuvant in cases of vaginal irritation, burning, itching, hypersensitivity, and vaginal disorders
- Recommended for women of childbearing age, menopausal women, and women in perimenopause.

PRESENTATION

5/10 vaginal ovules 2g

INGREDIENTS

Sodium Hyaluronate, Vitamin E Acetate, Tea Tree Oil, Lactic Acid, Polycarbophyl, Phosphatidylcholine

SUPPORTS THE
MICROBIOME

ALLEVIATES

ITCH

BURNING

5-1 FORMULATION

LUBRIFICATES

HYDRATES

REBALANCES
PH

REPAIRS

PROTECT

EFFECTIVE ON FRAGILE MUCOSA
POST-RADIOTHERAPY & SEVERE IRRITATION

REGULATORY STATUS

- Class IIb
- MDR CE certified
- ISO 13485 certificate
