ABNORMAL VAGINAL DISCHARGE

DESCRIPTION

GINCLOR is a vaginal lavender intended for irrigation of the vaginal cavity; pleasant and delicate, provides a sense of freshness and cleanness. It is useful in cases of vaginal dryness, in the prevention and treatment of irritation, burning and itching.

THERAPEUTIC INDICATIONS

- **Abnormal greenish-yellow or greyish vaginal discharge**, with a frothy, abundant consistency and an odour unpleasant, often described as 'fishy' or Whitish, dense and lumpy discharge, often described as 'ricotta-like'.
- **Intense itching**: Persistent itching sensation in the vaginal and vulvar area, which can be particularly bothersome
- **Burning sensation**, which may worsen during urination or sexual intercourse.
- **Vaginal Irritations and Inflammations**
- **Infection Prevention and Vaginal Health Maintenance**
- Particularly effective against infections caused by *Streptococcus agalactiae*, *Candida albicans*, *Gardnerella vaginalis*, and *Herpes simplex virus*
